

Lab Technician - Stability Studies (all genders)

Job Description Summary

Today, Lonza is a global leader in life sciences operating across three continents. While we work in science, there's no magic formula to how we do it. Our greatest scientific solution is talented people working together, devising ideas that help businesses to help people. In exchange, we let our people own their careers. Their ideas, big and small, genuinely improve the world. And that's the kind of work we want to be part of.

Apply as a QC laboratory technician for the Stability team (all genders) at our location in [Visp](#), Switzerland.

You are part of the "QC - Stability" team, which is responsible for testing the stability of biological, biotechnological and chemical products manufactured under GMP. For this purpose, the product is stored under various climatic conditions, analyzed and evaluated at regular intervals. This information is used to determine the stability and expiration date of the products. An exciting and highly dynamic business area awaits you, in whose further development you can actively participate.

Key responsibilities:

- Organization of stability samples (start of new studies and sample management)
- Documentation of the implementation of stability studies under GMP
- Managing the stability studies in appropriate software
- Packaging of stability samples
- Responsibility for equipment (e.g. refrigerators, scales)

Key requirements:

- You have a laboratory technician qualification in the field of chemistry, biology or a comparable field (e.g. BTA, CTA, PTA)
- You work in a precise and structured manner
- You enjoy working with computers (approx. 50% of the work)
- Experience in the GMP environment is an advantage
- Good knowledge of German and English

Every day, Lonza's products and services have a positive impact on millions of people. For us, this is not only a great privilege, but also a great responsibility. How we achieve our business results is just as important as the achievements themselves. At Lonza, we respect and protect our people and our environment. Any success we achieve is no success at all if not achieved ethically.

People come to Lonza for the challenge and creativity of solving complex problems and developing new ideas in life sciences. In return, we offer the satisfaction that comes with improving lives all around the world. The satisfaction that comes with making a meaningful difference.
