

Bioprocess Engineer: Cleaning SME 80-100% (m/f/d)

Job Description Summary

The actual location of this job is in Visp, Switzerland. Relocation assistance is available for eligible candidates and their families, if needed.

Today, Lonza is a global leader in life sciences operating across three continents. While we work in science, there's no magic formula to how we do it. Our greatest scientific solution is talented people working together, devising ideas that help businesses to help people. In exchange, we let our people own their careers. Their ideas, big and small, genuinely improve the world. And that's the kind of work we want to be part of.

Become part of this exciting opportunity and join our team by applying for position as Bioprocess Engineer - Cleaning SME (m/f/d) in BioConjugates Manufacturing for commercial Antibody-Drug Conjugates (ADC's) in Ibox park!

Key responsibilities:

- Subject matter expert in activities pertaining to GMP cleaning – CIP, SIP, Parts Washer, Autoclave etc. including the design, commissioning, and qualification of new facilities.
- Ensure timely execution of operational activities for clinical and commercial manufacturing while maintaining safety and quality standards.
- Perform manufacturing tasks in compliance with cGMP guidelines, including batch execution, test result evaluations, equipment troubleshooting, and resolution recommendations.
- Review production documentation, address deviations and change requests, and implement CAPAs to maintain high-quality GMP standards.
- Participate in the development and review of automation recipes for equipment and facility components.
- Train production personnel on assigned products and actively participate in audits and customer visits.

Key requirements:

- Master's degree or equivalent experience in Biotechnology, Biochemical Engineering, Biochemistry, Process Engineering, or a related Life Science field (or a Bachelor's degree with relevant pharmaceutical production experience).
- Expertise in Upstream, Downstream processing, or Bio-conjugation technology.
- Experience in bio-manufacturing and/or scaling up a biopharmaceutical facility, with cGMP experience being an advantage.
- Excellent English communication skills; German proficiency is a plus.
- An organized and goal-oriented approach to work, with a willingness to consider new ideas, strong motivation, and a problem-solving approach.

Every day, Lonza's products and services have a positive impact on millions of people. For us, this is not only a great privilege, but also a great responsibility. How we achieve our business results is just as important as the achievements themselves. At Lonza, we respect and protect our people and our environment. Any success we achieve is no success at all if not achieved ethically.

People come to Lonza for the challenge and creativity of solving complex problems and developing new ideas in life sciences. In return, we offer the satisfaction that comes with improving lives all around the world. The satisfaction that comes with making a meaningful difference.

Lonza is an equal opportunity employer. All qualified applicants will receive consideration for employment without regard to race, religion, color, national origin, sex, sexual orientation, gender identity, age, status as a qualified individual with disability, protected veteran status, or any other characteristic protected by law.
