

## Bioprocess Engineer BioConjugates (m/w/d)

### Job Description Summary

This position is located in Visp, Switzerland. Relocation assistance is available for eligible candidates and their families, if needed.

Today, Lonza is a global leader in life sciences operating across five continents. While we work in science, there's no magic formula to how we do it. Our greatest scientific solution is talented people working together, devising ideas that help businesses to help people. In exchange, we let our people own their careers. Their ideas, big and small, genuinely improve the world. And that's the kind of work we want to be part of.

At Lonza, we believe that the key to our success lies in the outstanding talents and ideas of our people. We are currently seeking Bioprocess Engineer BioConjugates (m/w/d) to join our team in Visp, Switzerland. Are you looking for your next challenge? Apply now and don't miss this amazing opportunity to be part of an extraordinary team!

#### Key responsibilities:

- Secure operational activities for assigned manufacturing projects in downstream areas.
- Ensure that operational activities for clinical and/or commercial manufacturing are performed in a timely manner and within given safety and quality standards.
- Responsible for entire processes or process units for clinical and commercial manufacturing projects in therapeutic BioConjugates like Antibody-Drug Conjugates (ADC).

#### Key requirements:

- Master's Degree in Biotechnology, Biochemical Engineering, Biochemistry, or a related Life Science subject. Equivalent experience will also be considered for candidates with a Bachelor's Degree.
- At least 3 years of experience in bioprocess technology in a GMP environment
- Experience working with MES and DeltaV.
- Knowledge of Antibody-Drug Conjugates (ADC) and their bioprocessing requirements is an asset.

Every day, Lonza's products and services have a positive impact on millions of people. For us, this is not only a great privilege, but also a great responsibility. How we achieve our business results is just as important as the achievements themselves. At Lonza, we respect and protect our people and our environment. Any success we achieve is no success at all if not achieved ethically.

People come to Lonza for the challenge and creativity of solving complex problems and developing new ideas in life sciences. In return, we offer the satisfaction that comes with improving lives all around the world. The satisfaction that comes with making a meaningful difference.

Lonza is an equal opportunity employer. All qualified applicants will receive consideration for employment without regard to race, religion, color, national origin, sex, sexual orientation, gender identity, age, status as a qualified individual with disability, protected veteran status, or any other characteristic protected by law.
