

Lonza

Chemielaborant

Job Description Summary

Today, Lonza is a global leader in life sciences operating across three continents. While we work in science, there's no magic formula to how we do it. Our greatest scientific solution is talented people working together, devising ideas that help businesses to help people. In exchange, we let our people own their careers. Their ideas, big and small, genuinely improve the world. And that's the kind of work we want to be part of.

We are looking for a **Chemical Laboratory Technician in Research & Development** (all genders) for our Chemical Process Development team at the Visp site. In our team, we deal with bringing active ingredients into production or developing the process for production. We are looking for a person who enjoys working in a chemical laboratory and is interested in laboratory automation and continuous reaction technology.

Key responsibilities:

- Practical implementation of experiments, process engineering development, and optimization of processes for the production of active pharmaceutical ingredients in a standard laboratory as well as in the HAPI laboratory in compliance with safety standards
- Planning, coordination, and documentation of experiments in compliance with regulatory standards
- Maintenance and cleanliness of the assigned laboratory and equipment in the work area
- Supporting the head chemist in the planning and evaluation of experiments

Key requirements:

- You have completed vocational training as a chemical laboratory technician or similar
- You have practical knowledge in the field of chemical process development and the implementation of basic analytical techniques such as HPLC, GC, and NMR
- You enjoy working in a chemical laboratory and are interested in laboratory automation and continuous reaction technology
- You have an independent, careful, and reliable way of working. You can communicate and work in a team and enjoy interdisciplinary cooperation
- Good knowledge of English is necessary. Willingness to learn German is required

Every day, Lonza's products and services have a positive impact on millions of people. For us, this is not only a great privilege, but also a great responsibility. How we achieve our business results is just as important as the achievements themselves. At Lonza, we respect and protect our people and our environment. Any success we achieve is no success at all if not achieved ethically.

People come to Lonza for the challenge and creativity of solving complex problems and developing new ideas in life sciences. In return, we offer the satisfaction that comes with improving lives all around the world. The satisfaction that comes with making a meaningful difference.
