

## Global Master Data Domain Owner (f/m/d)

### Job Description Summary

Today, Lonza is a global leader in life sciences operating across three continents. While we work in science, there's no magic formula to how we do it. Our greatest scientific solution is talented people working together, devising ideas that help businesses to help people. In exchange, we let our people own their careers. Their ideas, big and small, genuinely improve the world. And that's the kind of work we want to be part of.

As Global Master Data Domain Owner you will be responsible to implement the Lonza data framework to govern and improve the quality in Materials Management and Production & Planning master data objects (Material, BOM, Recipe, Production Version, Resources). Based on Lonza data framework, you will organize the data governance, define and implement global data maintenance processes, set authorization and security measures and ensure the necessary community training and documentation.

Key responsibilities:

In addition to this, the Global Master Data Domain Owner represents the Global Master Data Management team in global key projects such as the SAP S/4HANA implementation. You will interact with stakeholders from various departments (Supply Chain, Operations, QA, Procurement, IT) in a global role that supports all Lonza businesses and sites,

- Implement a multi-level data program (Governance, Data model, Data management processes, Data Security, Reporting & insights, Data literacy) in SAP ERP system.
- Organize the data governance with stakeholders to enable to optimized data solutions.
- Deal with escalations and challenges from your stakeholders or business functions.

Key requirements:

- You have experience on SAP ERP or SAP S4/HANA.
- You have experience in supply chain or operation processes.
- You have a Bachelor's or Master's degree in data science, computer science, mathematics, business information technology or business administration, logistics or supply chain.
- You have experience in data management and data analytics.
- You are fluent in English. German and any additional language will be an appreciated asset.
- You are interested in being a reliable team member in a multi-cultural environment.

Every day, Lonza's products and services have a positive impact on millions of people. For us, this is not only a great privilege, but also a great responsibility. How we achieve our business results is just as important as the achievements themselves. At Lonza, we respect and protect our people and our environment. Any success we achieve is no success at all if not achieved ethically.

People come to Lonza for the challenge and creativity of solving complex problems and developing new ideas in life sciences. In return, we offer the satisfaction that comes with improving lives all around the world. The satisfaction that comes with making a meaningful difference.
