

Internship Project Support

Job Description Summary

Today, Lonza is a global leader in life sciences operating across three continents. While we work in science, there's no magic formula to how we do it. Our greatest scientific solution is talented people working together, devising ideas that help businesses to help people. In exchange, we let our people own their careers. Their ideas, big and small, genuinely improve the world. And that's the kind of work we want to be part of.

Key responsibilities:

- Comparison and analysis of databases
- Clean-up and reorganization of data according to the project guidelines
- Support activities within the project

The main area of this internship is the communication with the project owners and the local training administrators.

The intern will also be responsible for the comparison and analysis of training data according to the guidelines provided by the global project coordinators.

They will mainly work with Excel database and will communicate with the local training team and the global project owners, in order to learn and understand how the training data should be handled and restructured.

Every day, Lonza's products and services have a positive impact on millions of people. For us, this is not only a great privilege, but also a great responsibility. How we achieve our business results is just as important as the achievements themselves. At Lonza, we respect and protect our people and our environment. Any success we achieve is no success at all if not achieved ethically.

People come to Lonza for the challenge and creativity of solving complex problems and developing new ideas in life sciences. In return, we offer the satisfaction that comes with improving lives all around the world. The satisfaction that comes with making a meaningful difference.
