

Manufacturing Scheduler Operations (f/m/d)

Job Description Summary

Today, Lonza is a global leader in life sciences operating across three continents. While we work in science, there's no magic formula to how we do it. Our greatest scientific solution is talented people working together, devising ideas that help businesses to help people. In exchange, we let our people own their careers. Their ideas, big and small, genuinely improve the world. And that's the kind of work we want to be part of.

The Production Scheduler is responsible for proactively maintaining and continuously improving the production schedule.

Perform all duties to ensure the departmental schedules are accurate and communicated to all relevant departments to drive short term execution of plans

Ensure all schedules are created respecting existing labour and asset capacities and achievable based on planned material availabilities

Drive timely resolution of all scheduling conflicts with relevant stakeholders.

Key responsibilities:

- Create, track and maintain the short term schedules to provide visibility to defined departments to drive short term execution of plans
- Incorporate input from all relevant departments to ensure schedules are realistic within relevant constraints and latest information
- Drive optimization of schedules by balancing demand priorities against optimal production sequencing and efficient resource (facility/suite, equipment, staff, materials etc.) utilization
- Ensure all feedback regarding changes to existing plans is incorporated into schedules in timely manner
- Maintain detailed planning and scheduling parameters in planning system to allow optimal use of system scheduling functionality
- Generate relevant KPI and operational measures to support identification of trends or root causing of sub-optimal performance
- Maintain accurate production schedule, providing data for the MRP process to meet production demands
- Review documents such as production schedules, work orders, and staffing tables to determine personnel and materials requirements, and material priorities

Key requirements:

- Bachelor's degree or similar in supply chain (and comparable fields)
- Very good knowledge of German and business fluent English
- Several years of experience in scheduling in pharma or biotech, experience in a production environment
- CPIM certificate (or comparable) advantageous
- Good knowledge of SAP (MM, PP-PI) and MS Office (Excel, Powerpoint)
- Good communication and presentation skills
- Strong Team Player and able to work across cross-functional teams

Every day, Lonza's products and services have a positive impact on millions of people. For us, this is not only a great privilege, but also a great responsibility. How we achieve our business results is just as important as the achievements themselves. At Lonza, we respect and protect our people and our environment. Any success we achieve is no success at all if not achieved ethically.

People come to Lonza for the challenge and creativity of solving complex problems and developing new ideas in life sciences. In return, we offer the satisfaction that comes with improving lives all around the world. The satisfaction that comes with making a meaningful difference.
