

## MSAT – Operational Material Management Specialist

### Job Description Summary

Today, Lonza is a global leader in life sciences operating across three continents. While we work in science, there's no magic formula to how we do it. Our greatest scientific solution is talented people working together, devising ideas that help businesses to help people. In exchange, we let our people own their careers. Their ideas, big and small, genuinely improve the world. And that's the kind of work we want to be part of.

For our site in Visp we are looking for an Operational Material Management Specialist. As a member of MSAT (Manufacturing Science & Technology) Biologics you will be focused on the raw materials and single use materials topics, supporting the MSAT teams and ensuring harmonization among the different Business Units. In this role you will have the opportunity to significantly contribute to the further development of the material management procedures.

#### Key responsibilities:

- Coordinate general raw material topics ensuring harmonized procedures and sharing best practices among the different technologies in Lonza Biologics at Visp
- Collaborate with Global MSAT and site Quality, Supply Chain and Logistics to maintain and develop the raw material management systems in line with the global guidance, with the objective of ensuring a regulatory compliant and increasingly efficient process
- Support MSAT's teams with raw material topics
- Review and approve Deviations and Changes concerning general issues related to raw materials
- Develop and Maintain a training program to ensure MSAT can perform the assigned raw material tasks
- Monitor and develop the performance of the raw material processes

#### Key requirements:

- Master's Degree in Biotechnology or scientific discipline (Chemistry/ Engineering/ Analytics/Biochemistry)
- Min. of 2-5 years of experience as an MSAT Operational Material Management Specialist
- Experience in biopharma manufacturing
- Very good planning and organization skills
- Team player able to work independently in multidisciplinary teams
- Excellent communication skills in English, German is an advantage

Every day, Lonza's products and services have a positive impact on millions of people. For us, this is not only a great privilege, but also a great responsibility. How we achieve our business results is just as important as the achievements themselves. At Lonza, we respect and protect our people and our environment. Any success we achieve is no success at all if not achieved ethically.

People come to Lonza for the challenge and creativity of solving complex problems and developing new ideas in life sciences. In return, we offer the satisfaction that comes with improving lives all around the world. The satisfaction that comes with making a meaningful difference.
