

## Postdoc Quality Project Manager Business Processes

### Job Description Summary

Today, Lonza is a global leader in life sciences operating across three continents. While we work in science, there's no magic formula to how we do it. Our greatest scientific solution is talented people working together, devising ideas that help businesses to help people. In exchange, we let our people own their careers. Their ideas, big and small, genuinely improve the world. And that's the kind of work we want to be part of.

We are looking for a Postdoc interested to join a cross functional team and drive the quality related topics at our site in [Visp](#). The contract is fixed for 2 years.

#### Key responsibilities:

- Be the voice of QA in cross functional teams and represent the Quality function at relevant meetings
- Collaborate with internal partner functions to ensure that we are meeting technical, quality, and supply chain requirements and to ensure the delivery of robust materials that are suitable for clinical and commercial manufacturing
- Continuously drive better business practice and increased value to the business through measurement and improvement of key performance indicators
- Escalating issues in an open and timely manner and taking leadership for their resolution

#### Key requirements:

- PhD and Degree in Chemical or Mechanical Engineering, Life Sciences or related discipline
- Familiarity with process equipment and GMP biomanufacturing environment and requirements is an advantage
- Ability to solve problems, understanding details and strategic picture, providing practical solutions. Strong analytical and investigative skills
- Strong organizational skills, ability to balance multiple priorities simultaneously
- Fluent in English, German is an asset

Every day, Lonza's products and services have a positive impact on millions of people. For us, this is not only a great privilege, but also a great responsibility. How we achieve our business results is just as important as the achievements themselves. At Lonza, we respect and protect our people and our environment. Any success we achieve is no success at all if not achieved ethically.

People come to Lonza for the challenge and creativity of solving complex problems and developing new ideas in life sciences. In return, we offer the satisfaction that comes with improving lives all around the world. The satisfaction that comes with making a meaningful difference.
