

Lonza

Postdoc/Postgraduate – QA specialist Capex Projects (m/f/d)

Job Description Summary

Today, Lonza is a global leader in life sciences operating across three continents. While we work in science, there's no magic formula to how we do it. Our greatest scientific solution is talented people working together, devising ideas that help businesses to help people. In exchange, we let our people own their careers. Their ideas, big and small, genuinely improve the world. And that's the kind of work we want to be part of.

In order to support our growth in Stein and [Visp](#) (Switzerland, AG), we are looking for **Postdocs / Postgraduates** in order to support our project portfolio growth. The successful candidates will be hired on a 2-years contract joining a cross-functional team. The main responsibilities are listed below, but not limited to and might be adapted depending on project priorities.

Key responsibilities:

- Oversee Commissioning, Qualification and Validation activities undertaken in order to be compliant with internal requirements, regulatory expectations and industrial standards
- Oversee the implementation of global Performance Qualification standards across different Lonza sites
- Support the definition and implementation of robust business processes related to the CAPEX project quality oversight.
- Act as a key member in cross-functional project teams, by ensuring that cGMP and Lonza guidelines are followed and implemented during the entire phase of the project, from Ideation to Execution
- Escalating issues in an open and timely manner and taking leadership for their resolution

Key requirements:

- Master or PhD degree in Mechanical/Chemical/Pharmaceutical Engineering, Biotechnology, Life Sciences or other relevant disciplines
- Notion of biomanufacturing environment, cGMP requirements Qualification and Validation is an advantage
- Self-motivated individual with ability to solve problems, understand details and strategic vision, have strong analytical and investigative skills, provide pragmatic solutions with a collaborative approach
- Strong organizational skills with ability to balance multiple priorities simultaneously and strong verbal and written communication skills
- Fluent in English required, German is an asset, any other language is a plus

Every day, Lonza's products and services have a positive impact on millions of people. For us, this is not only a great privilege, but also a great responsibility. How we achieve our business results is just as important as the achievements themselves. At Lonza, we respect and protect our people and our environment. Any success we achieve is no success at all if not achieved ethically.

People come to Lonza for the challenge and creativity of solving complex problems and developing new ideas in life sciences. In return, we offer the satisfaction that comes with improving lives all around the world. The satisfaction that comes with making a meaningful difference.
