

# Lonza

## Production Quality Specialist (m/f/d)

### Job Description Summary

Randstad (Switzerland) AG is looking for a **Production Quality Specialist (m/f/d)** for **Lonza AG** (100%). This is a temporary position for **6 months** with an opportunity to extend.

Today, Lonza is a global leader in life sciences operating across three continents. While Lonza works in science, there's no magic formula to how they do it. Their greatest scientific solution is talented people working together, devising ideas that help businesses to help people. In exchange, they let their people own their careers. Their ideas, big and small, genuinely improve the world. And that's the kind of work Lonza wants to be part of.

#### Key responsibilities:

- Ensures that all control parameters for intermediates and biological drug substances are checked for compliance with defined specifications before a batch is dispatched.
- Ensure that all open issues within EBRs explained and closed
- Is responsible to identify GMP events requiring a Deviation
