

Project Leader Cleaning Validation (m/f/d)

Job Description Summary

Today, Lonza is a global leader in life sciences operating across three continents. While we work in science, there's no magic formula to how we do it. Our greatest scientific solution is talented people working together, devising ideas that help businesses to help people. In exchange, we let our people own their careers. Their ideas, big and small, genuinely improve the world. And that's the kind of work we want to be part of.

As Project Leader Cleaning Validation you are part of the Cleaning Science & Moda Lab of QC Phys. Chem. in Visp. As the main person in charge of the site, you are responsible for all QC relevant cleaning validation issues. In this role, you will support existing production lines as well as the site's growth projects. In collaboration with various teams (QA, MSAT, Operations), you are assigned to organize and coordinate cleaning validation studies in our QC labs. Strong organizational and communication skills are an advantage to accomplish these tasks.

Key responsibilities:

- Support Operations regarding cleaning validation for existing projects, NPI and growth projects.
- Responsibility for the organization of cleaning studies in QC
- Setup QC plans in LIMS for cleaning validation and cleaning samples
- Review and approval of cleaning plans and reports
- Participation in and responsibility for audits and inspections

Key requirements:

- Completed studies in natural sciences (MSc//PhD) or a comparable qualification.
- Experience in the pharmaceutical industry in the field of cleaning validation is an advantage
- GMP experience is an advantage
- You enjoy taking on challenges in a dynamic environment
- You have a very good understanding of German and English
- On-call duty every 3 - 4 months (assignments are carried out remotely)

Every day, Lonza's products and services have a positive impact on millions of people. For us, this is not only a great privilege, but also a great responsibility. How we achieve our business results is just as important as the achievements themselves. At Lonza, we respect and protect our people and our environment. Any success we achieve is no success at all if not achieved ethically.

People come to Lonza for the challenge and creativity of solving complex problems and developing new ideas in life sciences. In return, we offer the satisfaction that comes with improving lives all around the world. The satisfaction that comes with making a meaningful difference.
