

Project Leader QC Mammalian Large Scale

Job Description Summary

Today, Lonza is a global leader in life sciences operating across three continents. While we work in science, there's no magic formula to how we do it. Our greatest scientific solution is talented people working together, devising ideas that help businesses to help people. In exchange, we let our people own their careers. Their ideas, big and small, genuinely improve the world. And that's the kind of work we want to be part of.

The site in [Visp, Switzerland](#) is growing and for our Biologics Quality organization, we are currently looking for a Project Leader QC Mammalian Large Scale in [Ibex® Solutions](#), our recently launched unique biological manufacturing and development concept. The successful candidate will represent Quality Control in the internal overall project organization, be the main contact point for external customers and responsible for all analytical aspects in the course of transfer activities. Become a part of this exciting opportunity and apply now!

Key responsibilities:

- QC Project Management for Mammalian Large Scale Projects
- Key contact for all Quality Control related topics
- Lead all activities related to analytical method transfer
- Support extension of the QC laboratories to assure sufficient testing capacities
- Coordinate all project related QC activities according to the needs and priorities of the external customers
- Prepare and support of production campaigns
- Set-up change controls and deviation investigations
- Support customer audits and authority inspections

Key requirements:

- Master or PhD in a field such as Chemistry, Biology, Biotechnology or equivalent
- Strong understanding of Quality Control in the field of Biologics
- Advanced Project Management skills combined with a structured and solution-oriented work approach
- Strong Leadership and Stakeholder management skills
- Experienced with Quality Systems (GMP)
- Excellent communication skills and interaction with all kinds of internal and external interfaces
- Fluency in English, German will be an advantage

Every day, Lonza's products and services have a positive impact on millions of people. For us, this is not only a great privilege, but also a great responsibility. How we achieve our business results is just as important as the achievements themselves. At Lonza, we respect and protect our people and our environment. Any success we achieve is no success at all if not achieved ethically.

People come to Lonza for the challenge and creativity of solving complex problems and developing new ideas in life sciences. In return, we offer the satisfaction that comes with improving lives all around the world. The satisfaction that comes with making a meaningful difference.
