

## QA Team Lead for Process Validation in Chemical Plants (f/m/d)

### Job Description Summary

Today, Lonza is a global leader in life sciences operating across three continents. While we work in science, there's no magic formula to how we do it. Our greatest scientific solution is talented people working together, devising ideas that help businesses to help people. In exchange, we let our people own their careers. Their ideas, big and small, genuinely improve the world. And that's the kind of work we want to be part of.

The site in [Visp, Switzerland](#) is growing and for our QA Validation organization, we are currently looking for a Team Lead for Process Validation in the chemical plants. In this role, you will be QA responsible for manufacturing process validation in the small molecules plants.

#### Key responsibilities:

- Leading the QA validation team for the process validation in the chemical plants
- Ensuring the harmonization and compliant procedures in the chemical plants
- Participating in audits and inspections
- Preparing process specific validation documents (protocols, reports, periodical reviews)
- Assessing change requests and deviations

#### Key requirements:

- Master of Science or PhD in chemistry
- Several years of experience with the validation of chemical processes
- First experience leading teams would be preferred
- Ability to handle multiple tasks and to work towards deadlines
- Fluency in English (written and spoken) and fluency in German (preferred)

Every day, Lonza's products and services have a positive impact on millions of people. For us, this is not only a great privilege, but also a great responsibility. How we achieve our business results is just as important as the achievements themselves. At Lonza, we respect and protect our people and our environment. Any success we achieve is no success at all if not achieved ethically.

People come to Lonza for the challenge and creativity of solving complex problems and developing new ideas in life sciences. In return, we offer the satisfaction that comes with improving lives all around the world. The satisfaction that comes with making a meaningful difference.
