

## QA Team Leader Analytics for Biologics (f/m/d)

### Job Description Summary

Today, Lonza is a global leader in life sciences operating across three continents. While we work in science, there's no magic formula to how we do it. Our greatest scientific solution is talented people working together, devising ideas that help businesses to help people. In exchange, we let our people own their careers. Their ideas, big and small, genuinely improve the world. And that's the kind of work we want to be part of.

As part of the quality systems and services department, the team leader analytics for Biologics is responsible for the team of QA Specialists and experts in analytics and interacts closely with QC Biologics, as well as the project team and global quality functions at our site in Visp.

Key responsibilities:

- Approval of test methods, method transfer protocols/reports, method validation protocols/reports, OOX investigations, deviations, changes and risk assessments according to Lonza procedure and in compliance with regulatory guidance
- Ensuring the qualification of the team members, developing and coaching the team
- Distribution, prioritizing and coordination of the work within the team
- Implementation of innovations and lean management in the work area
- Participating in audits and inspections

Key requirements:

- Master of Science or equivalent education in a field like Biochemistry, Microbiology, Biology, Analytical Chemistry, Chemistry or Pharmaceuticals
- Vast experience in the regulated pharmaceutical industry in quality assurance and/or quality control
- In-depth understanding of quality control and analytical development in Biologics
- Proven leadership skills and effective use of hard and soft skills in all aspects of management
- Strong verbal and written communication skills in English language, good German skills advantageous

Every day, Lonza's products and services have a positive impact on millions of people. For us, this is not only a great privilege, but also a great responsibility. How we achieve our business results is just as important as the achievements themselves. At Lonza, we respect and protect our people and our environment. Any success we achieve is no success at all if not achieved ethically.

People come to Lonza for the challenge and creativity of solving complex problems and developing new ideas in life sciences. In return, we offer the satisfaction that comes with improving lives all around the world. The satisfaction that comes with making a meaningful difference.
