

## Scientist Data Reviewer (all genders) Quality Control HPLC Biologics - R63574

### Job Description Summary

Today, Lonza is a global leader in life sciences operating across three continents. While we work in science, there's no magic formula to how we do it. Our greatest scientific solution is talented people working together, devising ideas that help businesses to help people. In exchange, we let our people own their careers. Their ideas, big and small, genuinely improve the world. And that's the kind of work we want to be part of.

Join our dynamic, international, and young team in the scenic town of Visp as a Scientist / Data Reviewer (all genders). In this role, you will be responsible for reviewing data generated during routine Quality Control (QC) analysis in the QC Laboratory. Your expertise will ensure that all laboratory work complies with GMP and SOPs, enabling the timely release of monoclonal antibody batches.

Do you thrive in a fast-paced environment where priorities can shift quickly? Are you detail-oriented and enjoy precision in your work? In this role, you will gain valuable insights into production and quality control processes for cutting-edge biologic medicines.

#### Key responsibilities:

- Data review of HPLC and CE analyses
- Evaluation of quality parameters for stability studies and batch release
- Investigation of unexpected results
- Ensuring compliance with GMP and internal procedures

#### Key requirements:

- BSc or MSc in Chemistry, Biochemistry or similar field
- Experience in a GMP environment within Quality Control is highly preferred
- Hands-on experience with HPLC and/or CE (icIEF) is highly preferred
- You are very detail-oriented and you can adapt flexibly to changing priorities. You enjoy to curiously question and investigate ambiguous results.
- Fluency in English is a must, language skills in German are a plus

Relocation assistance is available for eligible candidates and their families, if needed.

Every day, Lonza's products and services have a positive impact on millions of people. For us, this is not only a great privilege, but also a great responsibility. How we achieve our business results is just as important as the achievements themselves. At Lonza, we respect and protect our people and our environment. Any success we achieve is no success at all if not achieved ethically.

People come to Lonza for the challenge and creativity of solving complex problems and developing new ideas in life sciences. In return, we offer the satisfaction that comes with improving lives all around the world. The satisfaction that comes with making a meaningful difference.
