## Scientist AD/QC Drug Products Small Molecules 80-100% (m/f/d)

### Job Description Summary

Today, Lonza is a global leader in life sciences operating across three continents. While we work in science, there's no magic formula to how we do it. Our greatest scientific solution is talented people working together, devising ideas that help businesses to help people. In exchange, we let our people own their careers. Their ideas, big and small, genuinely improve the world. And that's the kind of work we want to be part of.

On our site in Visp we build up a new group to offer small molecules drug products for early clinical phases to our customers. For this, we offer the newly created positions of Scientist AD/QC Drug Products Small Molecules (80 – 100 %). In this role you will be responsible for the analytical part in Pharma Small Molecules Drug Product projects for early clinical phases.

Key responsibilities:

- Implement analytical capabilities and processes required for analysis of capsule dosage forms
- Act as technical project leader AD/QC in contract development and manufacturing projects for early clinical phases
- Represent AD/QC in these projects to customers and regulatory bodies
- Implement, develop, and validate the required analytical methods
- Support process development, production, release and stability with the required analytics
- Carry out the required lab work

Key requirements:

- Doctoral degree / master degree / bachelor degree in pharmacy, chemistry or related field with an appropriate combination of education and training
- Experience with HPLC, dissolution testing and cGMP
- Pioneering spirit, entrepreneurial
- Good communication skills in German and English, assertive
- Reliable and accurate
- Engaged, customer focus, team-player

Every day, Lonza's products and services have a positive impact on millions of people. For us, this is not only a great privilege, but also a great responsibility. How we achieve our business results is just as important as the achievements themselves. At Lonza, we respect and protect our people and our environment. Any success we achieve is no success at all if not achieved ethically.

People come to Lonza for the challenge and creativity of solving complex problems and developing new ideas in life sciences. In return, we offer the satisfaction that comes with improving lives all around the world. The satisfaction that comes with making a meaningful difference.
