

Senior Lab Technician Analytical Development (m/w)

Job Description Summary

Today, Lonza is a global leader in life sciences operating across three continents. While we work in science, there's no magic formula to how we do it. Our greatest scientific solution is talented people working together, devising ideas that help businesses to help people. In exchange, we let our people own their careers. Their ideas, big and small, genuinely improve the world. And that's the kind of work we want to be part of.

A highly motivated Senior laboratory technician with experience in development, optimization, qualification of bioanalytical methods. The candidate must have biopharmaceutical industry experience on ligand binding/potency assays and other general ELISA-based methods. As a (Sr.) Lab Tech, she/he will be responsible for the execution of robust and reproducible assays to support Process Development. The candidate will support also technical transfer of the developed assays to the Quality Control (QC) team. The Sr. Lab Tech will work in interdisciplinary teams and will contribute to customers projects. Furthermore, will hold accountability for the performance and results of the assigned projects including timeline and cost control.

Key responsibilities:

- Projects: execute complex projects in the area of scientific expertise. Lead problem solving and lessons learned activities.
- Scientific tasks: execute experimental plans and data analysis, support in writing and reviewing high quality reports.
- Training: coordinate training activities in the area of expertise.

Key requirements:

- Lab Tech degree, BS degree in Life Sciences field
- 1-2 years of industry experience
- Direct experience in design, develop and implement ELISA methods for potency testing
- Knowledge on quality and regulatory requirements such as FDA, ICH, GLP/cGMP compliance
- Perform data analysis and interpretation. Able to draw conclusions on progress and results of work

Every day, Lonza's products and services have a positive impact on millions of people. For us, this is not only a great privilege, but also a great responsibility. How we achieve our business results is just as important as the achievements themselves. At Lonza, we respect and protect our people and our environment. Any success we achieve is no success at all if not achieved ethically.

People come to Lonza for the challenge and creativity of solving complex problems and developing new ideas in life sciences. In return, we offer the satisfaction that comes with improving lives all around the world. The satisfaction that comes with making a meaningful difference.
