

## Senior Lab Technician Analytical Development (m/w)

### Job Description Summary

Today, Lonza is a global leader in life sciences operating across three continents. While we work in science, there's no magic formula to how we do it. Our greatest scientific solution is talented people working together, devising ideas that help businesses to help people. In exchange, we let our people own their careers. Their ideas, big and small, genuinely improve the world. And that's the kind of work we want to be part of.

The site in [Visp, Switzerland](#) is growing and for our analytical development team for mammalian products, we are seeking an Scientist / Laboratory Associate with work experience in physical-chemical methods such as HPLC, LC-MS, iCiEF, glycan mapping, a passion for analytics and an affinity for programming/automation to join our Lonza talent community. Become part of a group that enables its customers to meet some of the greatest challenges in patient treatment and join us by applying for the Associate Principal Scientist position.

#### Key responsibilities:

- Execution of robust and reproducible assays to support Process Development
- SME for dedicated methods (incl. review and interpretation of data)
- Identifying and implementing innovations in the area of expertise and pursue continuous improvement projects
- Be the key person for our automation efforts

#### Key requirements:

- Degree (Bachelor, Master) in biology, biochemistry or a comparable subject area
- Several years of relevant professional experience
- Experience in protein analysis and physical-chemical methods (HPLC, LC-MS, iCiEF, etc)
- Track record in programming (eg Java)
- Ideally experience with IT/OT systems for analytical laboratories, such as electronic lab notebooks, Empower, etc.
- Confident communication in English.

Every day, Lonza's products and services have a positive impact on millions of people. For us, this is not only a great privilege, but also a great responsibility. How we achieve our business results is just as important as the achievements themselves. At Lonza, we respect and protect our people and our environment. Any success we achieve is no success at all if not achieved ethically.

People come to Lonza for the challenge and creativity of solving complex problems and developing new ideas in life sciences. In return, we offer the satisfaction that comes with improving lives all around the world. The satisfaction that comes with making a meaningful difference.
