

(Senior) Laboratory Technician (all genders) - HPLC/CE Quality Control

Job Description Summary

Today, Lonza is a global leader in life sciences operating across three continents. While we work in science, there's no magic formula to how we do it. Our greatest scientific solution is talented people working together, devising ideas that help businesses to help people. In exchange, we let our people own their careers. Their ideas, big and small, genuinely improve the world. And that's the kind of work we want to be part of.

For our beautiful [Visp](#) location we are looking for a Laboratory Technician (all genders) for our analytical Quality Control laboratory. You will be working in a brand new laboratory with cutting edge technology and instruments, in a young and international team. Your main tasks will be the routine analysis of biopharmaceuticals using HPLC/UPLC, CE, icIEF.

Your tasks:

- As a member of our Quality Control team, you are responsible for carrying out analytical methods in compliance with GMP and safety guidelines, with a focus on HPLC and/ or capillary electrophoresis (CE) analysis
- In addition to carrying out routine analysis, your tasks include method implementation, validation and method transfer
- You work according to quality guidelines and, in addition to practical laboratory work, also carry out the necessary administrative activities, such as documenting the results and creating work instructions
- At the same time, you support laboratory maintenance (equipment responsibility) and ensure that the laboratory is clean and tidy
- The varied responsibilities also include close cooperation with shift workers, supervision of apprentices and on-call duty

Key requirements:

- Apprenticeship as laboratory technician, BSc, CTA or similar education
- Hands-on experience with HPLC or CE is required
- Work experience in a GMP environment in the pharmaceutical or biotech industry is a plus
- You are independent, conscientious and responsible and have good communication and teamwork skills. You enjoy interdisciplinary collaboration. You have the ability to think abstractly, are well organized and remain calm in stressful situations
- Good knowledge of English is required. Knowledge of German is an advantage

Every day, Lonza's products and services have a positive impact on millions of people. For us, this is not only a great privilege, but also a great responsibility. How we achieve our business results is just as important as the achievements themselves. At Lonza, we respect and protect our people and our environment. Any success we achieve is no success at all if not achieved ethically.

People come to Lonza for the challenge and creativity of solving complex problems and developing new ideas in life sciences. In return, we offer the satisfaction that comes with improving lives all around the world. The satisfaction that comes with making a meaningful difference.
