

Lonza

Senior Process Expert (m/f/d) MES/DeltaV

Job Description Summary

Today, Lonza is a global leader in life sciences operating across three continents. While we work in science, there's no magic formula to how we do it. Our greatest scientific solution is talented people working together, devising ideas that help businesses to help people. In exchange, we let our people own their careers. Their ideas, big and small, genuinely improve the world. And that's the kind of work we want to be part of.

In order to support our continued growth, we are looking for experienced MES Expert with a relevant background in pharmaceutical manufacturing and MES Emerson Syncade to join our talent community in Visp, Switzerland. Become part of this exciting opportunity and join our team by applying for the position as Process Expert (m/f/d) MES/DeltaV! The role will be responsible for designing / authoring recipes / MBRs in Emerson Syncade and providing overall MES support.

Key responsibilities:

- Author and adapt MES/PCS Recipe based on the pharmaceutical Processes
- Responsible for defining the overall concept for MES recipes used in Operations Visp to ensure an easy and fast creation as well as adaption.
- Create and maintain relevant GMP documents (IQ, OQ, PQ etc.)
- Provide front line MES support, working with the manufacturing teams (operators), plant engineers and QA operations
- Provide MES training for all end user
- Act as Subject Matter Expert during customer audits and visits, maintain MES at inspection readiness level and provide the necessary support

Key requirements:

- Experience in MES recipe authoring, preferably in Emerson Syncade
- Process knowledge in the area of pharmaceutical/biotechnology is preferable
- Knowledge of DeltaV is preferable
- Familiar with working in regulated environment, knowledge of cGMP, 21CFR part 11 and validation requirements

Every day, Lonza's products and services have a positive impact on millions of people. For us, this is not only a great privilege, but also a great responsibility. How we achieve our business results is just as important as the achievements themselves. At Lonza, we respect and protect our people and our environment. Any success we achieve is no success at all if not achieved ethically.

People come to Lonza for the challenge and creativity of solving complex problems and developing new ideas in life sciences. In return, we offer the satisfaction that comes with improving lives all around the world. The satisfaction that comes with making a meaningful difference.
