

## Senior QA Specialist, Project Manager PCP (Protein Conjugation Plant) (m/f/d)

### Job Description Summary

Today, Lonza is a global leader in life sciences operating across three continents. While we work in science, there's no magic formula to how we do it. Our greatest scientific solution is talented people working together, devising ideas that help businesses to help people. In exchange, we let our people own their careers. Their ideas, big and small, genuinely improve the world. And that's the kind of work we want to be part of.

We are looking for several Senior QA Specialists who want to manage projects and will support our growing business in BioConjugates. Join us and apply for this exciting opportunity in Visp, Switzerland.

#### Key responsibilities:

- As a member of the quality assurance team (PCP Conjugates), you will be responsible to ensure production of APIs is in accordance with Good Manufacturing Practice (GMP)
- You will support the contract manufacturing and advise members of development, production and analytical departments on all aspects of GMP
- You will be responsible for checking manufacturing documentation for conformity, change control and investigation of deviations and OOS-results
- You will support continuous improvements programs to establish effective Quality Management Systems
- In addition, you will be the quality contact for our clients and will be present during their GMP audits

#### Key requirements:

- Bachelor or Master degree in Life Sciences (e.g. microbiology, biotechnology, chemistry or related field)
- Significant experience in the biopharmaceutical industry, ideally in a GMP area
- Experience in a customer focused environment, managing independently stakeholders and their needs
- First experience in project management is preferred
- Excellent English (writing and speaking) for customer interaction and good basis in German (B1 level) to communicate with colleagues on a daily basis

Every day, Lonza's products and services have a positive impact on millions of people. For us, this is not only a great privilege, but also a great responsibility. How we achieve our business results is just as important as the achievements themselves. At Lonza, we respect and protect our people and our environment. Any success we achieve is no success at all if not achieved ethically.

People come to Lonza for the challenge and creativity of solving complex problems and developing new ideas in life sciences. In return, we offer the satisfaction that comes with improving lives all around the world. The satisfaction that comes with making a meaningful difference.
