

## (Senior) Scientist (m/w/d) QC HPLC

### Job Description Summary

Today, Lonza is a global leader in life sciences operating across three continents. While we work in science, there's no magic formula to how we do it. Our greatest scientific solution is talented people working together, devising ideas that help businesses to help people. In exchange, we let our people own their careers. Their ideas, big and small, genuinely improve the world. And that's the kind of work we want to be part of.

We are looking for a Scientist to join our QC HPLC Mammalian and mRNA team in Visp. Become part of our young and growing international team and take the opportunity to work on interesting projects in the rapidly developing field of Biologics.

#### Key responsibilities:

- Implementation, optimization, transfer and validation of analytical methods, with focus on HPLC, CE and icIEF
- Planning and implementation of release and stability analytics
- Responsibility for all HPLC project related tasks and representation of HPLC team in the project team for the assigned projects
- Processing of investigations, change requests and deviations under cGMP
- Extraction and evaluation of analytical data, preparation of reports and presentations
- Preparation, review and approval of documents to ensure compliance with regulatory guidelines
- Expertise in analytical and technical issues for the assigned projects

#### Key requirements:

- Bachelor, Master or PhD in chemistry, biochemistry, biology or related field
- Minimum 5 years of relevant experience in pharma industry with Bachelor degree, minimum 3 years of relevant experience in pharma industry with Master degree, PhD no experience in pharma industry required
- Good understanding of GMP required
- Experience with HPLC, CE or icIEF desirable
- Ideally experience with IT systems like LIMS and CDS
- Fluent in English, German is a plus

Every day, Lonza's products and services have a positive impact on millions of people. For us, this is not only a great privilege, but also a great responsibility. How we achieve our business results is just as important as the achievements themselves. At Lonza, we respect and protect our people and our environment. Any success we achieve is no success at all if not achieved ethically.

People come to Lonza for the challenge and creativity of solving complex problems and developing new ideas in life sciences. In return, we offer the satisfaction that comes with improving lives all around the world. The satisfaction that comes with making a meaningful difference.
