

## Teamlead Ops Management Cleaning

### Job Description Summary

Today, Lonza is a global leader in life sciences operating across three continents. While we work in science, there's no magic formula to how we do it. Our greatest scientific solution is talented people working together, devising ideas that help businesses to help people. In exchange, we let our people own their careers. Their ideas, big and small, genuinely improve the world. And that's the kind of work we want to be part of.

Become part of this exciting opportunity and join our team by applying for the position as (Senior) Team Lead Ops Management Cleaning in BioConjugates Manufacturing for commercial Antibody-Drug Conjugates (ADC's) in Ibx park.

#### Key responsibilities:

- Personnel responsibility and technical management of a team
- Shared team covering Modules O/R/V
- Responsible for all equipment cleaning procedures, MES recipe oversight and release, ensuring compliance with the Bioconjugates cleaning SOPs,
- Responsible for all documentation related to cleaning (cleaning validation plan and reports, DHT/CHT validation, VMP's , SOPs, cleaning concepts, cleaning results, cleaning checklist, loading lists, requalification package, LIMS, FMEA, flow path definition etc.)
- Main point of contact for MSAT Cleaning, QA Cleaning Validation
- Deviation- and change management
- PoC for cleaning related questions during audits
- Responsible for Washing / autoclaves: PoC for qualification, trouble shooting / maintenance, definition of loads and back-up strategy
- Facility Cleaning and Hygiene: EAR, Gowning, touchpoint with hygiene team, PQ reports, EM documentation (FMEA, layouts), PoC to define sampling strategy within modules for rooms,

#### Key requirements:

- Master's Degree in Biotechnology, Biochemical Engineering, Biochemistry or related Life Science subject, or Bachelor's holder with experience in pharma production
- Significant work experience in Downstream Processing or BioConjugates Manufacturing in the biotech/biopharma industry
- In-depth knowledge of downstream processing techniques
- Very good GMP understanding
- Excellent communication skills in English good German skills of advantage
- Strong team orientation
- Structured, well-organized working attitude and solution-oriented working style
- Open-minded for new ideas and suggestions

Every day, Lonza's products and services have a positive impact on millions of people. For us, this is not only a great privilege, but also a great responsibility. How we achieve our business results is just as important as the achievements themselves. At Lonza, we respect and protect our people and our environment. Any success we achieve is no success at all if not achieved ethically.

People come to Lonza for the challenge and creativity of solving complex problems and developing new ideas in life sciences. In return, we offer the satisfaction that comes with improving lives all around the world. The
